Blue Diamonds

The Cats

And we go out on the world tonight
With our blue diamonds
That were once our fears
Pressing down on the town
And we go out my love holding all our bets
Oh my lady resurrect this breath
On this hour of the night
We'll make it love, we'll make it love
'Cause I found you now
And forever I won't waste this breath
Let time be by our side
It's now and never I won't waste this breath
Now don't you wait I feel it in my hurt
Oh my lady you're the woman I search
To roll my heart
Roll my heart this way, hey, hey
'Cause I found you now
And forever I won't waste this breath

Let time be by our side
It's now and never I won't waste this breath
I remember a time, a little less tame
You rolled my heart home this way, this way
On the world tonight
With our blue diamonds
That were once our fears
Pressing down on the town
And we go out my love holding all our bets
Oh my lady resurrect this breath
On this hour of the night
We'll make it love, we'll make it love
'Cause I found you now
And forever I won't waste this breath
Let time be by our side
It's now and never I won't waste this breath
