World Gone Crazy

Meyer Rossabi

People changing , the worlds going crazy and crazy what it's doing, Decisions ,blurred by lights nothing stays the same and
Nothing ever will,now
So far, nothing's ever done,I am just a poor boy with no where else to run, living with a Monkey on my back, when will things get
Better, or should I change my hat,Now.
Chorus ;
Soon you will know
Soon you will tell
Things we can't solve
Cause time has evolved
(Solo)
Soon you will know
Soon you will tell
Things we can't solve
Cause time has evolved
People changing the worlds going crazy and crazy what it's doing,Decisions blurred by lights, nothing stays the same and nothing ever will, Now
