I Will Always Remember You

[Datarock](#)

Da da da da...Guy:
I remember all the days
Remember all the ways
The ways you made me feel...With you, I never had to hide
With you right by my side
I never even tried...Girl:
I had to go for something more
The times we had
Was no way to an open door(?)I had to break up with you
Cause there's so many things and so much I must do
But one day(?)You could always make me smile
Keep me warm and make me wild
I had to go
I miss you so
But whatever that youll do,
And whatever that youll say
I will always remember youGuy:
I thought everything was fine
I thought that you were mine
Until you drew the lineGirl:
And I just had to feel more free
I need more privacy
Its for the best you see (?)You could always make me smile
Keep me warm and make me wild
I had to go
I miss you so
But whatever that youll do,
And whatever that youll say
I will always remember youBridge:
Do you remember September?
(What was so great I could not say)
You stood there by my side
I never tried to run or hideDo you remember December?
(It just a day I went away)
I thought that you were mine
That it was fine you drew the lineDa, da da da, da da da, da da da...
Da, da da da, da da da, da da da...
