Elise

Aves

Can you take me some other way?
[Incomprehensible]I'll stay behind to make it evident for you
I know I look up at the sky
Saw you breathing in
In the fields, through the grass
Knew this was always gonna happen
In the breaking down when I thought I would have it
Now I can be fine looking at you smile
Carry me, Elise, so I can wave
Carry me, Elise, so I can wave
Carry me, Elise, so I can wave
Knew this was always gonna happen
In the breaking down when I thought I would have it
Now I can be fine looking at you smile
Now I can be fine looking at you smile
Carry me, Elise, so I can wave
Carry me, Elise, so I can wave
