Too High

Glenn Hughes

You're so electrified
But you're infected by the pain
You've been identified
And it's hello Mary Jane
You look so terrified
Inside your curiousity
But you just can't decide
Just what you want to be
You keep it down low
You let it all go
You're too high
You wanna be the best
Cuz you're too high
You never touch the ground
Cuz you're too high
You're different from the rest
Cuz you're too high
You're never comin' down
Into the sky above
There's a symbol of world peace
But you did kill the dove
Negativity release
They seek you everywhere
You're connected to your fame
But you don't really care
I think it's time to change your name
You keep it down low
You let it all go
You're too high
You wanna be the best
Cuz you're too high
You never touch the ground
Cuz you're too high
You're different from the rest
Cuz you're too high
You're never comin' down
Cuz you're too high
You wanna be the best
Cuz you're too high

You never touch the ground
Cuz you're too high
You're different from the rest
Cuz you're too high
You wanna be the best
Cuz you're too high
You never touch the ground
Cuz you're too high
You're never comin' down
You keep it down low
Haaaa!
