Didn't Even Know Her Name

Bread

Should've kept on goin'
But the hurt was showing
When she looked at me that way
I had to stay
I knew I had to get to know her nameThe town was weary
She was to marry
Someone planned years ago
Her eyes said no
I knew I had to get to know her nameAnd when I got her all alone
She told me through the tears
That she didn't really loved him
But he'd waited for so many years
She said she couldn't break his heart
She'd rather live with hers
And though I told her she should leave with me
She just could not believe with meShould've kept on goin'
Better that than knowin'
That he made her his wife
He took her life
You know I didn't even know her name
You know I didn't even know her name
