

# Elephants (Nocturne)

[Blaudzun](#)

She lives in madhouses, in war museums too  
She reads dinosaur books, and books on Jesus too  
She sings at big time rallies, the smart tunes go la la la la  
The key to the city is in the way she moves  
To me to me to me She lives in shipwrecked cars, in whore houses too  
She talks to elephants, trying to get them to Sing along, sing along my darling  
The smart kids go la la la la  
The secret in her eyes, oh when she moves To me [x4] She talks to elephants, trying to get them to  
Sing along
