

Like Em Young

Tove Lo

Hey boy, you're to young for me
But I don't care 'cause you are all I see
I like 'em young
I-I like 'em young Eyes wide oh, you're so naive
Thinkin' no one knows better than me
I like 'em young
I-I like 'em young And you keep make me wonder
Age is just a number
That they don't think about
That's all I think about I like 'em young
I like 'em young
I like 'em young
Young like me with a mind so we see! I like 'em young
I like 'em young
I like 'em young
Young like me with a mind so we see!
I like 'em Hey girl, why you're judging me?
When your, your guy is turning 53
I like 'em young
I-I like 'em young I don't know what really gets you more
Is it that my guy is gonna live out yours?
I like 'em young
I-I like 'em young They say they don't give but I
I can tell you're lying
'Cause we are slowly dying trying to work it out
And all I think about I like 'em young
I like 'em young
I like 'em young
Young like me with a mind so we see! I like 'em young
I like 'em young
I like 'em young
Young like me with a mind so we see!
I like 'em Life, I live mine
Love, not one kind
All is fare in love and war
My manners out the door
Why do I need them for? I like 'em young
I like 'em young
I like 'em young

Young like me with a mind so we see! I like 'em young

I like 'em young

I like 'em young

Young like me with a mind so we see!

I like 'em young!
