## The Whole Story

## **Sunrise Avenue**

It's been hard to come to you lately
It's been easier to stay away

And I can't feel the heat not the one that we would need There is something wrong there's a wall in betweenWait, we can't fall now

We cannot leave all we have

I know it hurts and feels badWe should stay and just fight back

We had it once all the way the whole story

And it will hurt but I'd be glad to take the painI've been trying to touch you the sweet way

You tried kissing me like the early days

But it's all very cold and it tears me apart

Yeah, it's too damn cold but we just can't stop nowWait, we can't fall now

We cannot leave all we have

I know it hurts and feels badWe should stay and just fight back

We had it once all the way the whole story

And it will hurt but I'd be glad to take the pain awayPain is a side of love we choose

To live with you know

After the rainy day

The sun will shine so Wait, we can't fall now

We cannot leave all we have

I know it hurtsWait, we can't fall now

We cannot leave all we have

I know it hurts and feels badWe should stay and just fight back

We had it once all the way the whole story

And it will hurt but I'd be glad to take the pain away

And it will hurt but I'd be glad to take the pain
