

# I Remember the First Time

Willy DeVille

DeVille I remember the first time  
And the look in her eyes  
I promised to love her  
Something she never realized  
And i believed everything that she said  
Every time that she lied  
Well she's still there in my dreams  
Every time that she lied  
Well she's still there in my mind  
Even though it's been a long, long time  
When i finally released her  
From my grip much too tight  
This was not love bought and sold  
Yes i know this was no answer  
But she's still there in my dreams  
And she roams through my nights  
Can't get her out of my heart  
Can't get her out of my dreams  
Can't get her out of my heart  
Even though it's been a long long time Too hot in here  
Too hot in here  
I gotta stay only for you  
Let me stay, let me go, let me stay  
I don't know  
I don't know  
But i can't get her out of my dreams  
And she still roams through my night  
Can't get her out of my heart  
Even though it's been a long long time  
I remember the first time  
First time  
I remember the first time  
I remember the first time  
I remember the first time
