Release (feat. Tima Dee)

JayKode

you took your time filled me to the brim
you built me up now im feeling it
i feel the pressure setting in
you got me lost in this heaviness

you built me up wont you please release me
you built me up wont you please release me
you built me up wont you please release me
release me
release me

please release me
oooo

oh oh
oh oh
oh oh
oh oh oh
(x2)

do you like suffocating me?
all this tension inbetween
has got me craving sweet relief
so let me go so let me leave

you built me up wont you please release me
you built me up wont you please release me
you built me up wont you please release me
release me
release me

please release me
oooo

oooooo
release release
release me
release me
oh release me

oooh
oooh
oooh ooh
oooh ooh
(x2)
