## THUMPERS

stay young  
"stay"  
look at the night  
each others arms  
sway soft  
we're tired but ripe  
i'm pouring  
outstretched  
lips on the side of your face  
you're mouthing "oh my god, stay"  
palms out  
turn covers and lay  
your neck an arc  
kiss knees  
let our breathing remain but let our names fall away
