

Passenger Seat

Casey McQuillen

And we're in your car
And we're driving far
And we, we've got the radio up too loud

When you sing along
It's my favorite song
'Cuz I'm your passenger seat for now

Let's run baby, let's go
To a town that no one knows
If we could just run so far
We'd never have to leave this car
Let's run baby let's drive
'Till she is out of mind
Just turn the radio up too loud
'Cuz I'm your passenger seat for now

And we walk around
In this boring town
And you, you look up at the sky

Make me wait with you
Quarter after 2
To see a shooting star go by

Let's run baby, let's go
To a town that no one knows
If we could just run so far
We'd never have to leave this car
Let's run baby let's drive
'Till she is out of mind
Just turn the radio up too loud
'Cuz I'm your passenger seat for now

And I have always loved you
But why can't you see
She can't love you like me?
Me, me, me
I'll be your passenger seat

I'd be your passenger seat

Let's run baby, let's go
To a town that no one knows
If we could just run so far
We'd never have to leave this car
Let's run baby let's drive
'Till she is out of mind
Just turn the radio up too loud
'Cuz I'm your passenger seat

For now, for now, for now
I'll be your passenger seat
For now, for now, for now,
I'd be your passenger seat
