

Walking the Wire

Anubis Spire

"Walking The Wire"

If you believe that everything that dies
comes back around again, forever...
Would you want to be with me again?

And if we're wrong and nothing lasts
And this is all we have together
Would you stay with me until the end?

Walking the wire
To the other side
I will not turn back
I won't look down

If I should fall
Finally lose it all
I will ride your love
Down to the ground

If you believe that all you see around you
Is nothing but illusion
Is there any reason to this all?

And if everything we do lasts
Only for it's season
Why build it up to watch it fall?

Walking the wire
To the other side
I will not turn back
I won't look down

If I should fall
Finally lose it all
I will ride your love
Down to the ground
