

# Voodoo

## Get Scared

I'm so nervous it shakes the fingertips that are  
    Coursing through your hair  
    With these lovely lips that are  
        Made to kiss  
    You know you put me in a spin  
    You've got the body of a goddess  
    You've got the moves that make me sweat  
    You've got a voice that makes me breathless  
    Girl I've got you  
Under a spell and I don't think I'll be letting you out  
    I've got you  
If this is heaven then baby I don't wanna know hell.  
    She says my singin' gets her thinkin' filthy  
    The thoughts she's thinkin', I know I'm not worthy  
    I know what I need to sweep her off her feet  
    She knows the work  
    Will damn near kill me.  
    Girl I've got you  
Under a spell and I don't think I'll be letting you out  
    I've got you  
If this is heaven then baby I don't wanna know hell  
    I've got you  
Under a spell and I don't think I'll be letting you out  
  
    I've got you  
If this is heaven then baby I don't wanna know hell  
    She can't resist me  
    She's just what I need  
    She makes me so weak  
    In my knees, in my knees  
    She can't resist me  
    She's just what I need  
    She makes me so weak  
    In m knees, in my knees  
    I've got you  
Under a spell and I don't think I'll be letting you out  
    I've got you  
    Under a spell!  
    Girl I've got you

Under a spell and I don't think I'll be letting you out  
I've got you  
If this is heaven then baby I don't wanna know hell  
I've got you  
Under a spell and I don't think I'll be letting you out  
I've got you  
If this is heaven then baby I don't wanna know hell  
Baby I don't wanna know hell!  
If this is heaven then baby I don't wanna know hell
