

Circles and Squares

We Were Promised Jetpacks

And I've been walking in circles and squares
and circles again
Kept chasing my tail
it would help if I knew where it ends
And life in a coma
could be quite fun
And I could play architect
and nobody's son
Where are we going
its still warm outside
I'll open those curtains
straight in my spine
And I've been walking in circles and squares
and circles again
Kept chasing my tail
it would help if I knew where it ends
I followed that dark horse
to see where he'd go
Straight through the forest
and out on to the road
And where are we going
its still warm outside
I crept through the front door
and into the night
Where are we going
its still warm outside
I'll open those curtains
straight in my spine
Its a dark light
when you're always staying inside
Its a dark light
when you're always staying inside
