

A Star Is Born

John Butler Trio

A star is born like so many before
But he shines bright, he lightens up all my life
How proud I am, he'll make me a real man I'll curse the days
I have to go away from you, children
Curse the days, I curse the days I hold his hand, somehow he understands
And all day long we climb in the slide and sing his song
I know, I am, I'm drifting from my plan I'll curse the days
I have to go away from you, people
I curse the days, I curse the days
