

The Chase Is Better Than the Catch

Motörhead

You know I'm bad, the times I've had
I've gotta bad reputation
I don't care, I get my share
Don't feel no deprivation

The more I get the better it is
I like it fine, like a little whiz
Treat 'em like ladies, that's a fact
You know the chase is better than the catch

Silver tongued devil, demon leach
You know just what I'm doing
I like a little innocent bitch
You know I ain't just screwing

I love you baby, love you too much
I like you fine I feel your touch
But your appearance don't hold no class
You know the chase is better than the catch

A little beauty I love you madly
Come on home with me
I know you're hot, I know what you've got
You know I want to shake your tree

Come on honey touch me right there
Come on honey don't you get scared
Come on honey let me get you in the sack
You know the chase is better than the catch
