## Joy Division

Walk in silence, don't walk away in silence  
See the danger, always danger  
Endless talking, life rebuilding  
Don't walk away Walk in silence, don't turn away in silence  
Your confusion, my illusion  
Worn like a mask of self-hate, confronts and then dies  
Don't walk away People like you find it easy  
Naked to see, walking on air  
Hunting by the rivers, through the streets every corner  
Abandoned too soon, set down with due care  
Don't walk away in silence, don't walk away
