

Kiss Me

[Robbie Williams](#)

In my young life I have received
Callers as though they were Christmas Eve
I'm disappointed and I don't know why
She gave me laughter and hope and a sock in the eye
In my young life and I know something now
I've never tried to create a wow
Wows are few frustration more common
Now I can feel it in my soul that's why I gave the come on
Kiss me with your mouth
Your love is better than wine
Kiss me with your mouth
Your love is better than wine
But wine is all I have
Will your love ever be mine? Faces fall before my feet
Like blood onto a clean white sheet
When I grow old I won't forget
To innocence, my only debt While I feel so fresh today
Barefoot in the snow to make love in the hay
The stars are bright in the abyss
Now I can feel you in my arms, I explode inside your kiss
Kiss me with your mouth
Your love is better than wine
But wine is all I have
Will your love ever be mine? Kiss me
Kiss me with your mouth
Your love is better than wine
Kiss me with your mouth
Your love is better than wine
But wine is all I have
Will your love ever be mine?
