

# S.I.D.

## Rainsford

My mind keeps on wandering running with visions of a new sunrise  
In my mind it's just you and me settling underneath the pastel sky  
Sometimes there's this emptiness in my chest feeling like a ghost inside  
In my mind it's a fantasy, Venice Beach See you when I close my eyes

Chorus: Can we take a minute just to live a different life Step out of the shadows fall asleep to ocean tides

It's all sweet when we're together  
It's always perfect weather with you  
Let's go I could just surrender  
to Sunshine In December with you  
So far away

Tonight we could fly away, c'est la vie f\*\*\* it, never looking back  
Tonight let's just break the curse make it work I could be your ride or die  
So high take me places I'd never find love it are you doing right  
Tonight nothing's holding us it's dangerous but we could leave it all behind

Chorusi»¿
