

# Shredding Sacred Flesh

## Skeletonwitch

The heavens bleed with fire  
Demons sent forth from Hell's domain  
Darkness, unleash the will of Satan  
Dead, this kingdom of decay  
Burned and beheaded, the remains of angels  
Unholy Legions, shredding sacred flesh  
Slaughter of the righteous  
Destruction of the holy  
Monstrous perversion, wickedness  
Drink the blood of the crucified angels  
Praise the name of the unmerciful goat  
Rip the heart from the soul of the innocent  
Hang them from the cross around their throat  
Curse the light, now become of the darkness  
Bewitch the heavens under evil's spell  
Decimate sacred spirits of divinity  
Torch the heavens with the flames of Hell  
Drink the blood of the crucified angels  
Praise the name of the unmerciful goat  
Rip the heart from the soul of the innocent  
Hang them from the cross around their throat  
The heavens bleed with fire  
Dead, this kingdom of decay
