

# Can't Go Back

## The Crane Wives

it's time to learn to be  
more forgiving of yourself  
and your sins

and those you mistakes you've made  
you've gotta try to take  
the lessons away from them

and leave the rest behind  
regret, put it out, put it out of your mind  
all the self-loathing in the world  
won't change a thing

'cause you can't go back  
darling  
the time has come for movin' on

you can't be always tryin' to dig up  
what you've already buried  
you've got to carry  
carry  
carry on  
carry on

it's not fair

it's not fair

when have you ever known the world to be a better place (it's not fair)

all things end and all things change  
(it's not fair)

you'll go back and back all day  
(it's not fair)

you just need to learn to be okay  
(it's not fair)

'cause you can't go back

darling  
the time has come for movin' on

you can't be always tryin' to dig up  
what you've already buried  
you've got to carry  
carry  
carry on
