

Get Things Done (Rory Phillips Remix)

Little Boots

Too many people, places, calling opportunity
Can't settle down
so many problems that we've got to beat One shot, working a miracle
Can't stop, feeling invincible
There's no limit how far we'll go
You would not believe how We don't have the time for another lie
We don't have the time Go out, stay late, make no mistake
We know how to get things done
True lies, we'll fake, we make or break
We know how to get things done So if you wanna badger
If you wanna take the lead
You gotta work out how to play it
Keep it up to speed We don't have the time for another lie
We don't have the time Go out, stay late, make no mistake
We know how to get things done
True lies, we'll fake, we make or break
We know how to get things done Every hour of the day
No we're not gonna wait
We're making a count
We know how to get things done
Every sleepless night
Only keeping us awake
We'll be there in the crowd
We know how to get things done We know how to get things done
We know, we know
We know, we know Go out, stay late, make no mistake
We know how to get things done
True lies, we'll fake, we make or break
We know how to get things done Every hour of the day
No we're not gonna wait
We're making a count
We know how to get things done
Every sleepless night
Only keeping us awake
We'll be there in the crowd
We know how to get things done We know, we know
