

These Rituals of Mine

Choir of Young Believers

These
rituals of mine
Shine a different light every time
And I
I try to paint them
In colors that you like
Cause this shine a different light every time And ohh
I cover and conceal
I prevent you from the real
You just rise above it all
You've baptized me with your love
These rituals of mine
Like crystals in your eyes
They'll just always be around
Don't you
Feel the way I do?
And it all just passes through anyway And I
Cover and conceal
I prevent you from the real
You just rise above it all
You've baptized me with your love
These rituals of mine
Like crystals in your eyes
They'll just always be around
You take it all
you take it all
You take it all
you take it all
You take It all
you take it all
You take it all
you take it all
