

Soul Mate

The Hermit Crabs

Gerald Levert - Soul Mate

Verse 1

Everyone needs someone they can talk to
If it's fine with you they would walk through
with no hesitation be there
they care for you
And everyone needs someone they can run to
In the nick of time they are
sure to come through
Cause they have your best interest at heart
Their part, part of you

Chorus

We all need a soul mate
Someone to hold
when the nights become cold
Someone to love
We all need a soul mate
A shoulder to cry
just to help us get by
someone for us

Verse 2

Now who in the right mind
wouldn't want a love they
can have for a lifetime
someone they can cherish
someone they can share with for life
may one person, no, no, no, no, no

And who wouldn't want someone
they can dream with
Not to mention any more proud then to be seen with
your lover and your best friend
times like these we appreciate

Chorus

Got to hear me yall
You got to hear me now
soul, soul mate
Got to be with me now
We all need a soul mate

Someone to hold when the nights become cold

Someone to love

Shoulder to cry just to help you get by

Someone for you and me, me and you

Baby, baby, baby. baby, baby, baby

We all need someone to love sometime

Someone to hold on to, listen baby

Ooooooooooooo

yeah, yeah, yeah, yeah, yeah, yeah

We all need a soul mate

Someone to hold when the nights become cold

Someone to love when its cold outside

And I need a shoulder to cry

to help me get by

yeah, yeah, yeah, yeah
