

Secrets of the Night

Mis-Teeq

There's something we gotta tell ya - we're not like other girls,
Shape the light and away we go.
Midnight dim the light-gonna be a full moon tonight (hey)
Gonna cause a lot of rage alright
(alright)
I can see a lot of prey inside, knock knock check the locks
Better stay inside 'cause we can't be stoped (cant be stoped)
Tick tock better watch the clock, hearts racing 'cause we're feeling hot
We're creatures of the night, so don't be
fooled by our shape or size
We're coming after you so hide
And if you have any other plans you'd better forget about it[chorus]
A body, needs more and more, can't sleep, till I get it all,
The streets ain't safe any more don't speak, can't hear you call
So sweat, but dangerous you'll see if your curious
Better believe the secrets of the night
Better believe, better believe
On track creeping up (creeping up)
Think your ready but I bet your not (bet your not)
Gonna give you an electric shock. gonna hit you with a million watts
MC:i'm gonna hit you full blow that's a fact
I'm gonna get you with a full contact like a bat out of hell its a natural
Fact, the mystery of mis-teeq be wary of that.
The mystery is our disguise look deep into our eyes you'll find a big
Surprise,there's no way out before sunrise
And if you have any other plans forget about it[chorus][RAP:] now I'd be the movement in the night
You never thought that real beings come alive
But I proved that we can rock it from the dark side
And when I'm hungry it's time for me to take a bite
For those who know but try not to believe
I'm coming round the corner don't stop or breathe
'cause if I ever smell the blood running through your veins
You'll never ever ever live to see another day[MC x1]
[chorus x1]You'd better believe [x2]
Better believe
You'd better believe
