Angel Above My Head

[Neil Diamond](#)

If you're gonna be true to me
First you've got to be true to yourself
Oh yeah
It don't matter about nobody else
Oh no
If it's there in your mind

It's a lesson I've just come to learn
Something
That I've only just begun to learn
Oh yeah
For the very first time
For the very first time

Angel above my head
Calling my name in different places
Angel above my head
Saying it's alright to show your face to the world

Everything seems new to me
Such a very recent turn of events
And the truth
Just doesn't make any sense
Oh no
For the very first time

If we had another year or two
I would spend it being near to you
Oh yeah
Like the very first time
Like the very first time

Angel above my head
Calling my name in different places
Angel above my head
Saying it's alright to show your face now

Angel above my head
Tapping me gently on my shoulder
That angel above my head

Saying it's time to be growing older, my friend

If you wanna be true to me
First you've got to be true to yourself
Oh yeah
It don't matter about nobody else
Oh no
Keep me there in your mind
I'll be there by your side
