Run (REMIX)

The Relay Company

If you could see things straight now
I could turn you around
Don't you say to me that you need me
When you don't mean to say that you need me
Just take my hand and listen because
If I was leaving would you say to me I was wrong?
Would you say that I was wrong?Run run run won't you get away
I've been tired of always faking you
If you don't focus your attention on the finer things
Then you might as well forget about the rest of our days
Run run run won't you get away
I've been tired of always chasing you
Back to this place where black and white make grayIf we could wrap this up now
we could get up off the ground
Don't you leave me now cause you need me
But all I really mean to say is I need you
Just take my hand and listen because
If I was leaving would you say to me I was wrong?
Would you say that I was wrong?I've got a secret I'm not keep it
And it's been killing me
I've lost all my patience
I'm tired of these game and
I've got to let it out
