

# Par Avion

## Mike & The Mechanics

Another day has passed me by  
And there's an island in the sun to see me through  
Another day in paradise  
But there's no reason, there's no rhyme without you  
Here comes the night, here comes the dreaming of you  
Breathing your love in me  
Here comes the night, here comes the feeling I've been  
Waiting here for so long, I've been waiting here for so long  
There's a time and there's a place  
When we can share the silver night, silent room  
In my bed an empty space  
'Cause there's no other in my life only you  
Here comes the night, here comes the dreaming of you  
Breathing your love in me  
Here comes the night, here comes the feeling I've been  
Waiting here for so long, I've been waiting here for so long  
Here comes the night, here comes the dreaming of  
you  
Breathing your love in me  
Here comes the night, here comes the feeling I've been  
Waiting here for so long, I've been waiting here for so long
