

# Dynamite

## VIZA

Here little Billy lemme  
tell you about a man  
in command.  
He rushed his people to the  
beat of his five year plan Build it, wield it, watch it  
fill the night, now Stalin  
says to sit and watch  
it light...Dynamite! Here little Billy now make  
sure you wash your hands.  
They're hot on our tail  
in old Mercedes-Benz. Build it, wield it, watch it  
fill the night, now Stalin  
says to sit back and watch  
it light...Dynamite! Dynamite!  
Dynamite!  
Dynamite! Comrades! Tonight we are  
gathered before to witness  
the greatest achievement  
man has come to see,  
tonight we make history,  
tonight we make..Dynamite!
