

## Mr. Mister

Fallin', fallin', fallin' This is your pilot speaking, we're losing altitude  
Just when emotion's peaking, awakening is rude  
I've seen that disbelieving look upon your face  
Now watch our bodies both as one we fall through space Chorus:  
32, do a 32, do a 32, and keep falling Falling Now all the constellations look just like you and me  
The earth keeps getting closer, the force of gravity  
Second per second becomes hour after hour, into infinity we fall together (chorus repeats 2x) (Solo) I've seen that  
disbelieving look upon your face  
Now watch our bodies both as one we fall through space (chorus repeats 4x) Fallin', fallin'
