

# I Should Live In Salt

## The National

Don't make me read your mind  
You should know me better than that  
It takes me too much time  
You should know me better than that You're not that much like me  
You should know me better than that  
We have different enemies  
You should know me better than that I should leave it alone, but you're not right  
I should leave it alone, but you're not right Can't you write it on the wall  
You should know me better than that  
There's no room to write it all  
You should know me better than that Can you turn the TV down  
You should know me better than that  
There's too much crying in the sound  
I should know you better than that I should leave it alone, but you're not right  
I should leave it alone, but you're not right I should live in salt for leaving you behind, behind Think about  
something so much  
You should know me better than that  
Start to slide out of touch  
You should know me better than that Tell yourself that someone knows  
You should know me better than that  
Learn to appreciate the void  
You should know me better than that I should live in salt for leaving you behind, behind  
I should live in salt for leaving you behind, behind
