

Last Obsession

Beseech

I'm resigned beneath the sky
To walk on the endless fields
 Only the night take
My only dream awayIt's my last obsession
It's my last obsession to get awayAnd I see illusions
 I hear whispers all around
 I tried to hold them back
Even if I circle around and I try to reach the sun
 It's my last obsession
 Circle around and I try to reach the sun
It's my last obsession to get awayMy hope has flown away
 To find a way from here
 Another day alone
Without sharingCircle around and I try to reach the sun
 It's my last obsession
 Circle around and I try to reach the sun
 It's my last obsession to get away
