

Necromania

Fearless Vampire Killers

Take all you need,
I hope you enjoy it,
cause the hangman you see,
He dealt the cards I play,
Ignore what you read,
I'm sure we'll get on swell,
The life on the party is me burn in hell!

Dramatic you say?!

You will be too,
if you saw death in your way,
at every turn he mocks me,
come lets go play,
oh i assure you now,
he'll claim me one day its the where and the how.

I'm so afraid,
that everyday will be the day I die,
and you'll never know,
how long ago I wished you goodbye.

Someone please get me out of here!
Call the doctor because I'm out of my head,
I don't mind,
Just what your little preacher says,
You won't be laughing baby when you're dead!

If we prepare ourselves,
suppose there is a way that we can keep on toasting our good health in many years to come,
it's not they'd sell it on the shelf,
but if it could be done wouldn't you try it ?
I know I would and then I'd hit and run!

What of the damage it costs?
And what about the people you left in the dust?
What of the lives that you have lost?
Theres no going back in time,
someday we all gotta die

Someone please get me out of here!
Call the doctor because I'm out of my head,
I don't mind,
Just what your little preacher says,
You won't be laughing baby when you're dead!

It's only a matter of time,
before our future fails to unfold,
I can't bare the thought of losing you
(and I'm so afraid any day could be the day I die)
There's nothing special about me
(and I'm so afraid any day could be the day I die)
I'm just so scared of what the end might bring

So I'll fight this head on,
If that's what it takes and I'll add some scars,
to the ones you already made. Y
ou want damage all that you know,
well this cats coming to rattle your bones.

Face me! (x4)

Someone please get me out of here!
Call the doctor because I'm out of my head,
I don't mind,
Just what your little preacher says,
You won't be laughing baby when you're dead!
