

Digging Up the Devils

Kan'Nal

I think maybe
there's something we can't see
Something just underneath
Our abilities to perceive
I got hazy vision
Living in a smoky mirror
I sure wish I could see clearer
Through this foggy mind

So I keep diggin more
I'm gonna dig up all those devils in my soul
I keep diggin more
I'm gonna dig up all the devils in the world
And free my soul

something tells me
question what I believe
Question authority
Question just about everything
That claims to be the
Only way to salvation
Only way to reach heaven
Don't believe the lies they feed
The poor and hungry
Are running on empty
The strength in your machine is fading
Don't think we won't
Step aside and watch it fall
Do our part to stop your wars
And take you on

So I keep diggin more
I'm gonna dig up all those devils in my soul
I keep diggin more
I'm gonna dig up all the devils in the world
And free my soul
