

# Who I Am (Radio Edit) (feat. Christian Burns)

[Benny Benassi](#)

Saving a life, it makes a difference  
The price of hope is worth the cost  
Taking a chance, I'm willing to risk it all  
'Cause the soul is everlasting  
While the mortals left behind  
No one ever really dies Strip my layers off  
My memory unfolds  
Back where it began  
This Is Who I Am (x4) A flicker of light, off in the distance  
Guide me home when I am lost  
I'm in your hands, we'll find our way through the fog  
All the gold that we've been chasing  
How it weighs us down inside  
And it goes so we can't climb Strip my layers off  
My memory unfolds  
Back where it began  
This Is Who I Am (x4)
