

Holler

Rebecca & Fiona

We spend the summer in town
Afraid of heights, even when Iâ€™m down
We write our names in concrete
Afraid of lights, when weâ€™re playing under sheets

You just call when you feel alone
Make me fall every time you go
You just call when you feel alone
The night is young and my heart is yours
So oh

Holler at me boy, donâ€™t be shy
Before I was even born, you were mine
So, Holler at me boy one more time
You and me, we are the same kind

We take the 94 south
By the castle, echoes running out
We make the sunrise at dawn
By my house, stay forever if you want

You just call when you feel alone
Make me fall every time you go
You just call when you feel alone
The night is young and my heart is yours
So oh

Holler at me boy, donâ€™t be shy
Before I was even born you were mine
So, Holler at me boy one more time
You and me, we are the same kind
So oh
