Foot One

Reef

All hearts are breaking
All is forsaken
You belong to me
How can that be?All we were making
Was nearly broken
All because of me
Why should that be?Build this dream
Please with me
I've been away for a long time
Build this dream
Please with me
I've been away for a long timeWhat was I needing?
My living reason
Words were not untrue
What did I do?Build this dream
Please with me
I've been away for a long time
Build this dream
Please with me
I've been away for a long time
Build this dream
Please with me
I've been away for a long timeAll we were making better for a clearer mind
Look out I can wait forever for a clearer mindBuild this dream
Please with me
I've been away for a long time
Build this dream
Please with me
I've been away for a long time
Build this dream
Please with me
I've been away for a long time
Build this dream
Please with me
I've been away for a long time
