

# Corrosion

## Stalwart

[Monoxide Child]I'm all in the dark now  
So dance with dead I can't do shit  
I'm fallin' apart now  
Been rottin' away in the grave since '96  
I hope I'm not forgotten  
Even though my body's gone  
And when I'm on the bottom  
Bury me with a Lotus cross  
Don't nobody love me  
Don't noone know the way that I feel  
I'm feeling so ugly  
And so I keep my casket sealed  
My sprit lingers like a ghost  
On the so called Earth  
I'm underground, I'm a monster  
Who lives in the dirt

[Shaggy 2 Dope]Understand, certain motherfuckers jump to life  
When certain concotions dumped down their windpipe  
In the stomach, through the blood  
And up to the dome piece  
Pass out, wake up  
Snappin' all necks within arms reach  
I need another fixin', Southwest Delray  
Green glowin' toxic bourbon  
Lord have mer-say-a (Mercy)  
Having to be an addict  
In my nugget but I love it  
And I can't seem to get enough of this shit

So fuck it

[Chorus]Rotting souls

Let them die

Corrosion

Rotting souls

Let them die

And we don't need life

Rotting souls

Let them die

Corrosion

Rotting souls  
Let them die  
And we don't need life  
[Anybody Killa]Corrosion keeps creepin'  
Don't let it wash you away  
Scratching on the surface  
Hopin' that them scars will fade  
It's like I'm being eaten from the inside  
And don't know why  
I keep fogettin' what I'm doin'  
Am I still alive?  
Will I breath again?  
And if I do  
I'll take a breath and hold it in  
Grab on tight to what I have  
The chase away this life of sin
