

# Unshaken

## Jimmie's Chicken Shack

Remember a time, much like today  
So many things are different  
Still I feel the same  
Everyday a little closerThat's what they say  
It takes time to make time  
So don't throw yours away  
I'm with youYou say you feel broken  
As your breaking down  
Keep all the anger inside  
Where it's safe and soundEveryday a little closer  
Is this how it feels  
After all of this time  
Still it's time that heals  
I'm with you, I'm with youAnd it's all I ever wanted to do  
Still with all that we have known  
Think we'd find a way  
To be unshakenAnd with all we have lost  
Wish we could find a place  
Where everyone could  
Live inside your dream, call it paradiseSay, it's circumstance  
As long as we're alive  
I'm with you if you lose your way  
Won't have to look farWhen you're ghost returns  
I'll be here to stare it in the face  
I don't back down, I hear everybody wins  
When it comes back aroundAll at once it hits you  
Still you keep the pace  
I travel so much further  
When I stand in place  
Because, I'm with you
