Red Moon

Shaggy 2 Dope

The wind chill is wicked now,
Tomb stones are crooked now.
Well I'm walking home I just left this bitch house
3 am when I looked in the clouds
like an eyeball watching you
who are the werewolves talking to
the moon is red and its big as hell
so the streets are alive and I'm by myself
this is Delray where the crackheads creep
red moon hanging high mean the dead don't sleep
street lights go out the city black I'm blind
all I see is the red moon above me flying
my eyes are just to the bloody red glow
aluminating a block and telling me what I know
that tonight many more will join the dead
its just me and the moon baby painting the town red(chorus)
the moon is red(watch out watch out watch out)
I go blind(watch out watch out...because its killing time)
the moon is red(watch out watch out watch out)
I lose my mind(watch out watchout...because its killing time)theres people like me everywhere
I dont see none but I know they there
I walk underneath the red moons powers
its so surprisingly hypnotizing me
hear a scream or two distant cries
listen as the angry dead rise
the red moon reminds us all of the forgotten
and it gots every murderer on the move plottin
the moon above with it I'm in love
shining all over me the color of blood
I'm in the house only this ain't my house
I got a axe buried into some old ladies mouth
I'm outside again runnin jumpin in the moon beams
bloody red moon I know what it means
I'm haunted walking with the possessd
and it ain't gonna stop until I'm under arrest(chorus)
the moon is red(watch out watch out watch out)
I go blind(watch out watch out...because its killing time)
the moon is red(watch out watch out watch out)
I lose my mind(watch out watchout...because its killing time)there ain't that many red moons in Delray

only when its time for these fools to pay
justified anger turns into revenge
with red moon above people aint your friend
I stuck a guarding claw into the face of a hooker
crackhead climb out a sewer and took her
body down its feeding time no misleading
red moon high bring the slaughtering season
the trees catch shadows that stretch for blocks
found a dead gangbanger took his shoes and socks
the red moon light painted all out the streets
coming from the sky I'm hearing voodoo drum beats
its total madness until the new day dawns
I'm bloody butt naked sitting on my front lawn
the red moon passes with the new day sun
and I'm left with the agony of what I've done(chorus)x2
the moon is red(watch out watch out watch out)
I go blind(watch out watch out...because its killing time)
the moon is red(watch out watch out watch out)
I lose my mind(watch out watchout...because its killing time)
