Thing For You

Randall Bramblett

You're a bad girl, baby
But you look so fine
You're in and out of trouble
But you're always on my mindI'm over my head and I know it
But what can I do
Ain't no way around it baby
I got a thing for youI, I got a thing for youAll your friends and your relations
Won't give me the time of day
When I try to catch your eye
You just walk awayAll the medicine in the world
Won't keep me from feelin' blue, no, no
Even my doctor told me
I got a thing for youI, I got a thing for youLeanin' out the window
Sure hope I don't fall
It's a dangerous situation
That don't bother me at allI look down into the street
And I see you standing there
I'm hallucinatin' baby
But I just don't seem to careOh, I, I got a thing for you
