

# Lunar Lights

## Sirena

Break this spell of illusion  
We are blinded by the night  
Let the diamond show the way  
Let the diamond show the way  
Lead us into evolution Told myself that I don't know you  
Tie these lines together  
Clouds are here tonight  
Told myself that I don't know you  
Tie these lines together  
Clouds are here tonight  
'Cause I'm longing for the LUNAR LIGHTS  
And darkness got us out of time  
And I am alive  
In the moment that we crystallize In the light, we surrender  
To the shadow in disguise  
Let the diamonds go to waste  
Let the diamonds go to waste  
Lead us into revolution Told myself that I don't know you  
Tie these lines together  
Clouds are here tonight  
'Cause I'm longing for the LUNAR LIGHTS  
And darkness got us out of time  
And I am alive  
In the moment that we crystallize  
You got me crystallize  
You got me crystallize  
'Cause I'm longing for the LUNAR LIGHTS  
And darkness got us out of time  
And I am alive  
In the moment that we crystalliz
