

I Still Ain't Over You

Augustana

Out of luck and out of tune
Half the day and I'm confused
Love may wash away the blues
But I still ain't over you Damn the day that I forgot
Came so close then almost lost
It's been one year and 14 months
But I still ain't over you Hey, I'm the blood in your veins
I'm the cold when it rains
I'm your heart when it breaks Time, no, it ain't on our side
I'm the truth to your lie
I'm your tear when you cry Back and forth and side to side
Right ain't wrong if wrong ain't right
I will love you day and night
'Cause I still ain't over you Hey, I'm the blood in your veins
I'm the cold when it rains
I'm your heart when it breaks Time, no, it ain't on our side
I'm the truth to your lie
I'm your tear when you cry 'Cause when the walls come crashing in
When the flames come closing in
Just remember time and again
I still ain't over you, hey Oh hey, I'm the blood in your veins
I'm the cold when it rains
I'm your heart when it breaks Time, no, it ain't on our side
'Cause I'm the truth to your lie
I'm your tear when you cry
