## All Mixed Up

## 311

You've got to trust your instinct And let go of regret

You've got to bet on yourself now star

'Cause that's your best betWatch me now with a wicked and wild and I said

We come with the funky style

That gets us known for the show

And we'll mix the hip hop, reggae if we say it is so

And fuck the naysayers 'cause they don't mean a thing

'Cause this is what style we bring Now it's morning but last night's on my mind

There's something I need to get off my chest

And no matter what may come to shine

The dream will always be mineAll mixed up you don't know what to do

Next thing you turn around and find the person is you

Thought a freak might be the thing

But the first could be the last, so just get off of your assAll mixed up you don't know what to do

Next thing you turn around and find the person is you

Thought a freak might be the thing

But you know this will pass, so just get off of your assYou've got to trust your instinct

And let go of regret

You've got to bet on yourself now star

'Cause that's your best betWatch me now with a wicked and wild and I said

Sick sick bit, got to have it

Like bustin' in on a session when you got to call it quits

Sick sick bit, just can't quit

Fact that you don't even know makes it fully legitNow it's morning but last night's on my mind

There's something I need to get off my chest

And no matter what will come to shine

The dream will always be mine You keep me coming

That is a gal that'll kill 'dem stunning

Keep me coming

That is a gal that'll kill 'dem stunningKeep me coming

That is a gal that'll kill 'dem stunning

Keep me coming

That is a gal that'll kill 'dem stunningYou make me nervous throat dry

My brain is empty don't know why

But I saw you doing something

Which is really truly nothing

And you could bust me out all dayMany moons, since first I saw you

Many moons, since first we did the do

Many moons, since first I saw you

Many moons, since first we did the doAnd why did I try when I knew it was no and

Why did I try when I saw it was so

But save it for late we should just let it skate

'Cause the waiting feel is fine
