If It's Not You (feat. AYER)

[Keljet](#)

Forget the way I behaved
You have to come back for me
Miles apart, all the stars
Told you to finally leaveNow with no one to be here
In the dark space where you met me
Where you left me no light
I get in touch with my human nature deep insideWho is gonna save me now?
Who is gonna save me now?
Who is gonna save me now?In my heart, there is a storm
It brings me down when I'm alone
Help me out, pull me through
Who is gonna save me if it's not youA world above without love is
Where I lose all control
I act a fool without you
I am my own worst enemyWho is gonna save me now?
Who is gonna save me now?
Who is gonna save me now?In my heart, there is a storm
It brings me down when I'm alone
Help me out, pull me through
Who is gonna save me if it's not youWho is gonna save me?
Who is gonna save me?
Who is gonna save me now?Who is gonna save me?
Who is gonna save me?
Who is gonna save me now
If it's not you
