Watch Your Back

Cock Sparrer

Advisory - the following lyrics contain explicit language:

Everybody's talking about revolution
Everybody's talking about smash the state
Sounds to me like the final solution
Right wing, left wing, full of hate[Chorus]
We don't wanna fight
Because you tell us to
So watch your back when you attack us
'Coz we might just turn on you.Things get worse with every hour
The future fades into the past
All they want is total power
Climbing on the backs of the working class.[Chorus][Chorus]We don't wanna be part of no new religion
We don't need a boot and a switchblade knife
We don't wanna be part of a political dream
We just wanna get on living our lives[Chorus x2]
