Pretend We're In A Movie

New Politics

I wanna kiss you on an island
I wanna fly you out to Paris
I wanna meet you in the alley
I want to lay you down right nowMy nuclear world
Full of cars and girls
Crashing out on a wave
I'm waving goodbye to the Kerosene skies
Snapping on your gum
Spitting fire at the sun
I hear you laughing out loud like a break in the clouds
I wanna grab you and run
When I shut my eyes
There's no way you can resist meI wanna kiss you on an island
I wanna fly you out to Paris
I wanna meet you in the alley
I want to lay you down right now
In the kitchen
I wanna live with you in Hollywood
And we'll pretend we're in a movie
So let me lay you down right nowWhen the glaciers melt
And it all goes south
I'm gonna sail through a dream of crushed velveteen thighs
Staring into space
With a smile on my face
I hear you laughing out loud like a break in the clouds
All I need is a taste
When I shut my eyes
There's no way you can resist me
