Magnolia Street

Catie Curtis

I knew that I loved you
The first time you got into my car
Your cheeks were flushed
And I felt a hush come over me in the darkI got us lost but at the next cross
You said I don't care where we are
I'm in the right carI drove us slow down a fast food strip
And you turned the radio on
I was confused, all the signs were lit
And you said I love this songI wanted to say that I loved you
But I knew too soon too strong
This is the ride I'm on
This is the ride I'm onAnd I recall in my sleep
How you changed my life on Magnolia Street
A dream but it's true
I am not the same since I met youAnd I feel like I'm going home
But not to the one I've knownI knew that I loved you
When we were flying home in the dark
Your hand on the wheel
While I was trying to take my jacket offMy foot on the gas your eyes fast
To the road ahead of us
I never felt such trustAnd I recall, in my sleep
How you changed my life on Magnolia Street
A dream but it's true
I am not the same since I met youI knew that I loved you
The first time you got into my car
Your cheeks were flushed
And I felt a hush come over me in the darkYou wake me up warm from sleep
And you take me in your arms
This is the ride I'm on
This is the ride I wantAnd I recall so complete
How you changed my life on Magnolia Street
A dream but it's true
I am not the same since I met youAnd I feel like I'm going home
But not to the one I've known
